## **Agencies Unite to Ensure Public Safety on State Ferries**

The Washington State Ferries Security Committee (WSFSC) held their regular meeting today. Representatives from the United States Coast Guard (USCG), Washington State Ferries (WSF), and the Washington State Patrol (WSP) attended the meeting. The three agencies are continuing to work together to ensure safety of passengers and crewmembers on board state ferries.

The WSFSC is asking citizens who observe any suspicious/unusual activities on the ferry or terminal to report them immediately. Suspicious activity should be reported as soon as possible to WSF personnel or state troopers at the terminal or on board the ferries. To report any activities at a later time, please call the USCG at their 24-hour number, 1-800-688-6664. Please provide a description of the individual and what was suspicious and the make, model, color, and license plate number if a vehicle is associated with the individual.

We appreciate the assistance from our citizens to maintain safety in Puget Sound. The safety and security of passengers and crew on board the ferries and at the terminals leading to the ferries is a primary focus of the USCG, WSF, and WSP.
